

## **HTM Areas of Emphasis Guidance for HTM and Free Elective Course Selection**

The 2008 HTM Checksheet includes six (6) HTM Electives and 24 free electives in the program of study. As a student, you have the choice of using up to eleven (11) of these free electives in the Pamplin College of Business. It is therefore, possible to take as many as seventeen (17) credits of HTM/PCOB electives. Due to Pamplin College requirements students are **not allowed** to go over this 17 hour limit.

In discussion with your major advisor you will want to explore courses and career opportunities that work best for you. Below is a sample of some of the courses that can be used in concert to form an area of emphasis. Students may wish to select twelve (12) hours or more in one of these areas or develop a customized offering of courses to fit their personal needs. This list is not meant to be inclusive or required, but only a sample as students plan their program of study.
